THE WORLD'S MOST SELECT

DAHLIAS

NEW DAHLIA, MAYOR TOWER

GROWN C. LOUIS ALLING DAHLIA SPECIALIST

251 Court Street

West Haven,

Connecticut

TO MY MANY FRIENDS AND FELLOW DAHLIA LOVERS

It is always a great pleasure to write this Annual Letter, and extend to you my greetings.

The past season was a very trying one for many growers, due to the heavy rains. Those who planted their Dahlias in heavy soil were particularly unfortunate. However, the late summer and autumn months brought more favorable weather, and many of our friends reported a remarkable improvement in their plants during the latter part of the season. If your plants did not make their usual luxurious growth, you may feel certain that the difficulty was with the unusual weather rather than your cultural methods.

Hoping that the coming season may be a most successful one with your Dahlias, and thanking you for past favors, I am,

Cordially yours,

January 1st, 1928

C. LOUIS ALLING

MY BUSINESS WETHODS

This list cancels all previous ones.

I send out divided field grown roots, everyone guaranteed true to name, and to arrive in good growing condition. I cannot guarantee them to grow if they are not unpacked immediately upon receipt.

All retail orders are sent Parcel Post unless instructions are received to send them otherwise. Orders taken at the Fall Shows, and all others not fully paid for will be sent C. O. D. at purchaser's expense, unless previous arrangemnts have been made. As the demand for some sorts often exceeds the supply, it will be well to order early and so avoid disappointment. It will also be well to name a few as second choice or state if I may substitute for any that are sold out. Full cultural directions sent with every order.

Remittance may be sent by Post Office or Express money order, registered letter, or check.

Stamps are very convenient for sums of less than \$2. One or two-cent denomination preferred.

LIBERAL EXTRAS

For Cash With Order Only

On orders amounting to \$10.00 or more, add stock of your selection to the amount of 10 %

On \$20.00 or over, 15%

On \$30.00 or over, 20%

This does not apply to special collections of any kind, seed or labels.

NEW INTRODUCTIONS

11211 2102500110
The following are some of the best of our late introductions, as well as those of other well known growers. All have been thoroughly tested, and we can recommend them with full confidence. George E. C. Beck (Beck). A very unusual and effective color combination is found in this new decorative. The base color is creamy yellow splashed and edged with rose and tyrian pink. The blooms are of good size, fine stems, and free flowering
Henderson Ives (Ives). The colors of this fine, large decora-
tive instantly catch the eye, being comewhat different than the ordinary. The base color is waxy white, very heavily edged and marked rich carmine. Stiff stems, and all other
good habits 5.00
Mayor Tower (Alling). This is our best contribution for 1928, and is named in honor, and with express permission of, Hon. John B. Tower, Mayor of the City of New Haven, who, when consent was asked, remarked that it was so beautiful that he could not refuse. The first feature to attract one is the very uncommon color; in fact, this is our chief reason for the color cut. According to Ridgway's chart, it is coral pink to old rose, with a yellow disc in the center. This is subject to some variation with the changes of the weather. Mr. Batcheller, in his account of the New York show, describes it as a rich plum color, and we think most people will agreewith him. It is of large size flowering habit is profuse, and it has a long, wiry stem with no inclination to droop. We used it very extensively as a commercial cut flower and found it a remarkable keeper when cut. We have a splendid stock of it, and are placing it on the market at a very low price
for a new variety
Mrs. C. R. Sherman (Meachen & Sherman). This large decorative resembles "Mordella" in color, but is much larger and has a fine, heavy, rigid stem, and is of much larger size. The color is apricot pink, shading to peach pink. The plants make a very heavy, dark growth, which seems to be resistent to insects
Miss Evelyn Kassabian (Kassabian). This big rosaline pink at-
tracted much attention in our exhibit at the New York show. It may be compared to "Glory of New Haven" in form and color, but will keep much longer when cut, due to its waxy finish. A large size decorative, good stems and a profuse
bloomer. \$10.00 Net
Mrs. Leonora Kassabian (Kassabian). We used this charming
decorative for the center of our display in New York, and it
seemed to instantly attract the attention of all visitors. Its
seemed to instantly attract the attention of all visitors. Its

delicate colorings make it something new and distinct in
Dahlias, being a lovely combination of phlox pink and white.
Profuse bloomer and heavy, erect stems. We believe if you
try this variety you will not regret it. Certificate of Merit
A. D. S
Pride of Meriden (Kassabian). This flame scarlet hybrid cactus
was another which attracted much attention in New York.
The colors are so brilliant as to almost dazzle the eye. The
size is large, and the plants produce an abundance of blooms,
but unfortunately the stem is inclined to curl \$5.00 Net
Purtitan (Kassabian). Red decoratives are very plentiful, but
this is such a rich color as to be different. The color for
the most is deep ox-blood red, with just a suggestion of car
mine at the edge of the petals. The stem also makes it very
worth while, being long and stiff, and it is an excellent bloom-
er. \$5.00 Net

DECORATIVE DAHLIAS NOVELTIES AND OLD FAVORITES

Prices Given are for Strong Field Grown Tubers. Sturdy
Green Plants of the New Varieties at One-half Price

A. W. Davidson. The colors of this large new decorative are	
almost beyond our powers of description, but we are doing	
our best. The base is creamy yellow deepening to a blush	
pink tipped and streaked rose. Large size and an early con-	
sistent bloomer	1.50
Alex Waldie. The colors of this variety are very soft and	
pleasing, a creamy ground overlaid delicate peach pink.	
Stems erect	.50
Altamont. The feature of this new variety is the wonderful	
length of rigid stem, to which may be compared those of	
Jersey's Beauty. The blooms, which may be grown to a very	
large size, are a pleasing American Beauty rose color and	
have a peculiar waxy formation	5.00
Amun Ra. This bronze California beauty scarcely needs any	
descriptions. It is a gorgeous combination of orange and	
bronze with a slight reddish tinge in center. Has wonderful	
stout stems, and blooms last exceptionally well when cut	.75
Biltmore. The ground is a bright rich carmine and the petals	
are more or less tipped white. May best be described	
as a Peony-Decorative as late in the season it comes Peony	
type	50

Black Jack. The best dark variety we grow, being deep crim-	
son maroon, which might almost be described as black.	
Large blooms on erect stems and a free bloomer	2.00
Bonnie Brae. This is a Dahlia of extremely pleasing color, the	
ground color being cream and overlaid a delicate blush pink.	
It may be grown to enormous size	.50
Brian Breau. This is one of the first plants in the garden to	
bloom, and continues bearing the enormous blooms, freely	
on long, strong stems until the end of the season. The color	
is deep royal purple	
Casper G. Ware. To those looking for a real novelty we can	
heartily recommend this variety, as it has exceptional exhi-	
bition and commercial qualities. Flowers are large, usually	
8 to 10 inches across, regularly formed and produced pro-	2.00
fusely on strong stems. Color bright clear violet rose	3.00
bronzy green foliage, and held erect on long, heavy stems.	
One of the best 1927 introductions	10.00
Champagne. The absolutely upright stems and the beautiful	10.00
autumn shadings of this Dahlia tend to make this a real	
worth-while variety. The color varies from burnished cop-	
per to a dull golden champagne and chamois	2.00
Charles Stratton. This grand exhibition variety has created	
quite a sensation in the Dahlia world of New Jersey where it	
originated. It is a large fluffy flower of pale gold shaded and	
* *	2.00
Charm. Here is a real autumn colored dahlia, being a charming	
combination of burnt orange and golden yellow	.75
shadings of magenta suffused through it. Size is very large,	
has good stems and a free bloomer	2.50
Dakota. This is one of the Marean group. It is a large im-	2.50
pressive flower of brilliant flame color and is borne on the ex-	
treme top of a very stout stem	.50
Delice. Beautiful soft pink. A grand flower	.25
Dorothy Pratt. This fine crimson variety has never been widely	
advertised, as the originator was not a commercial grower.	
Nevertheless, we believe it one of the best of its color, and	
reds are fairly plentiful. Has a fine stem, does not burn in	
the sun, in fact is an all-around clean grower. Color bril-	
liant crimson	1.00
Dr. Tevis. A magnificent blossom of a blend of copper, old rose,	-
and old gold. Immense flowers with the best possible stem	.75
Eagle Rock Beauty. A more beautiful combination of pink and cream than is displayed in this glorious creation would be	
difficult to imagine. Vigorous in growth with good habits	

and a stem which holds the flower erect. Immense blooms	
are full to the center and produced in abundance	0.00
Eastern Star. A new variety which we believe has come to stay	
as it combines all the good qualities of size, stem, and free-	
dom of bloom, also lasting exceedingly well when cut. Color	
soft saffron yellow with old gold shadings	3.00
Earl Williams. An immense deep scarlet with white tip. One	
of the most popular bi-colored varieties	1.50
El Dorado. Here is a variety which just seems to enjoy throw-	
ing big blooms and many of them. The color, too, is also dif-	
ferent, being a vivid gold that deepens toward the base	3.00
Eliza Clarke Bull. This splendid Bessie Boston variety is recog-	
nized as the most popular white grown today. The flowers	
are of the most perfect form, being very full and deep and,	
of course, it has a good, erect stem. Color is clear, waxy	
white	5.00
Elite Glory. This is regarded as a distinct "break" in the Dahlia	0100
World on account of its immense size and marvelous width	
of petals. Its effect is spectacular either in the garden or	
on the exhibition table, where the size makes it of particular	
value. The color is bright radiant red	5.00
Flemingo. An excellent variety for cutting, by reason of its	0100
fine stems and clear, bright shell pink color. Very prolific	.35
Fort Washington. The phrase, largest dahlia grown, seems to	***
be very much overworked at present, but we really know of	
no other description for this monster. We have seen many	
blooms of it 10 to 12 inches in diameter, and what is more	
unusual with these big fellows it has a fine, erect stem. The	
outer petals are a deep crimson deepening in the center to a	
fine, rich maroon	7.50
General McRae. A very popular autumn shaded variety, being	,,,,
apricot suffused gold. The blooms are large, well formed,	
and are held on rigid dark stems	3 50
George S. Harvey. For use on the exhibition table this huge	0.00
bloom is hard to beat. The color is purplish magenta with	
streaks of white	200
Glory of New Haven. This huge pinkish mauve bloom is one	2.00
that you should not be without. Blooms freely on stout stems	.75
Grandola. This variety is somewhat different from the ordi-	./3
nary. The principal color is golden orange, but some red suf-	
fusions may be found. Good size and stem	E 00
Ida Tarbell. Large cerise purple supported on top of a very	5.00
rigid stem	.75
	./3
Islam Patrol. A very dark velvet scarlet tipped and flushed	
with gold. Fine long stems, a good keeper and a prize win-	0.00
ner everywhere	2.00

Iola A. Blodgett. A beautiful stripped variety of amaranthe pink with stripes and splashes of deep rose. Medium size, profuse bloom, and very long, wiry stems
Jersey's Beacon. One of the most popular of Mr. Waite's late introductions, and has been awarded the blue ribbon wherever it has been shown in the red classes. The color is Chinese scarlet, with a paler reverse giving a two-toned effect. The flowers are very large and globular in form. It is a prolific bloomer on stems which hold the bloom perfectly erect 2.50
Jersey's Beauty. Those who have seen this variety exhibited at New York and other Eastern exhibitions well know what a beauty Mr. Waite has given us. It is without doubt the finest clear pink we have, and if slightly thinned can easily be grown on four feet stems. If you do not already grow this
fine variety you surely want it
hopper. A splendid cut flower
Judge Marean. This, as the name implies, is one of the finest of the Marean varieties. It is a combination of salmon pink, red, yellow, and gold. A very large flower, profuse bloomer, very early, and stands erect on fine stems
Junior. This monster deep lavender hardly needs any description for its immense size makes a welcome addition to all exhibitions
Lavendula. This is one of the best real, clear lavenders. A
strong grower, large, and the best of habits
a beautiful clear violet rose. Large and striking flower
Margaret Woodrow Wilson. An exhibition decorative of immense size and wondrous beauty. The fact of the petals is creamy white with a reverse of phlox-pink, giving an opalescent effect. One of the best late introductions

Margaret Masson. Wonderful exhibition variety of a beautiful	
silvery pink. Great depth and size. Flowers are produced	
abundantly on very rigid stems. A fine keeper when cut	2.50
Mrs. Carl Salbach. An immense mauve pink Decorative held on	
extra long, strong stems	.75
Mrs. I. de Ver Warner. This is a variety which is entirely dis-	
tinct from all existing sorts. The color is soft orchid pink	
throughout. It is a monster in size and is borne on long,	
stiff stems. As an exhibition flower either on long or short	4 00
stems, it is unexcelled. We have the true stock	1.00
Mordella. A truly artistic dahlia of beautiful apricot buff, being particularly effective for house decorations. Flowers av-	
erage 9 inches across and are held well above the foliage on	
extra long stems	2.50
Myra Valentine. A large bronzy bloom, having every good	
habit that the most discriminating grower may desire. Color	
is rich golden bronze with apricot suffusions	1.00
Nobilis. A fine fancy variety of brilliant scarlet with white	
edges	1.50
Old Black Joe. A dahlia to bear this name must, of course, be	
very dark. It is deep purplish crimson with a faint dusting	
of silver which is more pronounced on the reverse of the	2.00
petals. Free blooming, on wiry stems	2.00
Paul Michael (California Gold). A pure old gold flower which can be grown to a wonderful size. Has been awarded many	
prizes for the largest bloom	.75
Paul Revere. We think this big, deep crimson is the best of	.,,
its color to date. The blooms are large and of a wonderful	
depth	3.50
Patrick O'Mara. A fine, large, stiff stem variety of an unusually	
soft and pleasing shade of orange buff slightly tinged Neyron	
rose. A rare Autumn shade which will be in demand particu-	
larly as a cut flower variety	.75
Peacock. Another bi-color which attracted much attention in	
our garden last season. The purplish crimson blooms being	
striped and spotted white, making what we think is the best	
of these two-color arrangements of which there are new sev-	2.20
eral very similar on the market	2.00
Purple Manitou. A fine, large, clear, violet purple, being a sport	25
of Le Grand Manitou	.35
name "King of Primroses" very nicely describes the color,	
which is primrose or light cream throughout. The flowers	
are massive and reeely produced	5.00
Princess Pat. This is a charming flower of old rose. Early in	
the season the petals will be splashed red. Blooms are large	

and carried on excellent stems	.75
Pond Lily. There are several varieties on the market by this	., 0
name. This is the one which our good friend N. Harold	
Cottam has shown so beautifully the past two years. The	
color is a very soft and pleasing one, being creamy white	
with delicate shadings of soft peach pink. A dwarf grower	
and free bloomer	2.00
	2.00
Pride of Connecticut (66). We feel that in offering this new	
variety we have one which will soon prove its value both as	
a commercial cut flower variety as well as for exhibition. The	
color is for the most part deep glowing pink with the reverse	
of each petal changing to a light amaranth pink. The plants	
are dwarf to medium in height and are completely loaded with	
blooms from early until late. The stiff, wiry stem holding	
the flowers well out from the foliage. We use this extensive-	
ly for cut flower work not only because of its pleasing color,	
but it is a fine keeper when cut, and the stem is quite adapted	
to this purpose without the use of wire. Certificate of Merit	
A. D. S.	1.00
Pride of Stratford. A large two-tone orange variety with a very	
deep reverse. Long, sturdy stems and a free bloomer	5.00
Purity. Very reliable, free blooming white	
Queen of the Garden Beautiful. An immense flower of soft	.00
primrose yellow. One of the outstanding new California va-	
rieties	5.00
Radio. One of the largest bi-colored varieties, having a base	3.00
color of blood red with yellow tips and streaks of yellow	
running through the petals. The mammoth flower stands	
perfectly erect on a fine stem	2.00
Ralph H. Blodgett. Do you wish something new and entirely	2.00
distinct from other varieties? If so, try this. The ground	
color is deep orange with a slight red suffusion and each	
petal is tipped white. Large size and free bloomer	.75
Robert Treat. The beautiful American Beauty Rose color in-	
stantly attracts ones attention to this variety. This, with	
many other good qualities make it one of the most outstand-	
ing new varieties. Plants are of profuse blooming habit,	
size is large, and stems are long and strong	1.50
Robert Scott. A very beautiful apricot yellow with rose shad-	
ings. Large, well-formed flowers, long stems, and a free	
bloomer	3.50
R. T. Edwards. A huge bloom of a peculiar opalescent pink with	
a silvery overcast. Heavy, sturdy stems, and no doubt one	
of the best Harding productions	5.00
Rosa Nell. A flower of an unusual shade of clear rose pink, size	
is large, and the stem is of the best	.75

Rose Fallon. A giant old gold bloom of great depth and size,	
borne on fine, heavy stems	5.00
Sagamore. This autumn shaded giant has become a great favor-	
ite since its introduction in 1925, and is always in demand in	
the cut flower market. Its bright gold color with just a faint	
tint of salmon make it indeed an outstanding variety. Need-	
less to say, it is large and has a very good stem	
Sequoia Gigantea. Very large deep butter yellow	.75
Shelikoff. A fine, rich garnet of great substance and long, strong	
stems, free blooming and very valuable as a cut flower	.50
Snowdrift. It is of the clearest white, stem is long and stiff,	
and is also a very good bloomer	.50
Susan Lee. A mammouth exhibition bloom of flame red with	
golden tips	1.00
The Bashful Giant. This fellow is never bashful on the exhibi-	
tion table, but always stands right out in the very front row,	
as it is one of the very largest varieties we grow. The color	
is apricot, with golden and salmon pink shadings	1.00
The General. A deep garnet flower which shows a slight sliv-	
ery reverse, the combination forming a blossom of remark-	2.00
able beauty and charm	3.00
The Millionaire. A giant lavender pink. One of the largest,	= 1
	.50
The Red Planet. A large, broad petal bloom of clear cerise	1 00
with just a slight touch of yellow on the edge of each petal	1.00
The Seal of Connecticut. We regret that we must withdraw this from the market for the present. We unfortunately planted	
our stock of it on a low piece of land, and the heavy storms	
kept the roots covered with water nearly the entire summer.	
The U. S. A. This is a mammoth deep orange variety partaking	
somewhat of the Hybrid Cactus class. It is a very prolific	
strong growing variety, and if disbudded its size and beauty	
know no bounds	1.00
The World's Best White. Here is a variety that combines all	1.00
the good habits that are so seldom found in pure whites.	
Plants are strong, thrifty growers and bear big blooms free-	
ly from early to late	3.00
Trentonian. A giant decorative of a shade that instantly ap-	
peals. The color is a blending of old gold, amber and cop-	
pery bronze. Broad heavy petals making a flower of fine	
keeping quality	2.00
Wanda Miller. This variety very much resembles "Our Coun-	
try" in color but is much improved by having a good, erect	
stem. The color is deep violet with a stripe of white running	
through each petal	5.00
Wesley Haves. A variety somewhat similar to Jersey's Beacon	2.00

but a deeper red. For the most part it is a rich blood red	
tipped and edged golden yellow. Large and an excellent	
keeper and bloomer	3.00
W. J. Erwin. No doubt this is one of the best lanvender purple	
varieties on the market. Rigid stems and large size	5.00
White Glory. This white seedling of Glory of New Haven was	
introduced by us in 1923, and still holds its place among the	
good whites. Rugged grower, an early bloomer, and large	
size	2.00
Winfield Slocombe. Very few varieties can compare with this	
for freedom of bloom. The plants are dwarf in growth and	
the large blooms seem to almost hide the ferny foliage of the	
plants. The color, too, is very attractive, being a brilliant	
golden orange, which is very alluring at all times but more	
	2 00
especially under artificial light	2.00
Wm. Slocombe. The color is creamy yellow or light primrose,	~ ^
and may be grown to a giant size, also a very free bloomer	.50
Wonderland. This is one of the most distinct Dahlias both as	
regards form and color. Blooms are very large and composed	
of many long curled and twisted petals the face of which	
are violet carmine with a silvery reverse giving a handsome	
two-tone effect	3.00
Yale. We placed this on the market at the insistent demand of	
many of our friends who saw it growing in the garden. It is	
a combination of deep violet purple and white, with many	
variotions in the white markings, no two blooms being alike.	,
Medium size, free flowering, but the stems are inclined to	
curl	1.00
GIANT HYBRID CACTUS DAHLIAS	
Adda Patterson. We believe this long-looked for real clear	
white dahlia of satisfactory habits. The blooms resemble	
a huge, shaggy chrysanthemum rather than a dahlia. The	
stems are long and rigid. The color is the clearest snow	
white, and it is a fine, free bloomer	= 00
Alexander Pope. A giant hybrid of remarkable depth, often six	5.00
inches. It has a long, rigid stem and unlike many reds does not burn in the sun. Color is a deep crimson with a magenta	
reverse and an almost black center	= 00
Bridal Veil. Large, profuse blooming waxy white	
	.75
California Enchantress. Delightful shade of light pink with	
creamy white suffusions. The plants are free blooming on	=0
the best of stems	.50
Cigarette. A Dahlia which attracts much attention because of	
its oddity of color. The ground color is creamy white, heav-	
ily edged brilliant orange or flame. Blooms are large, stem	
is long and rigid and is a very fine bloomer	1.50

Colleen Bawn (Kernan 102). We have many giant varieties	
in the Hybrid Cactus class, but this overtops them all.	
The immense size not alone commends it, for the color too is	
extraordinary, being a deep clear pink throughout without	
shadings of any kind. If you intend to make any competitive	
exhibits this year you surely want this one	2.00
Daddy Butler. The ground color is of the American Beauty	2.00
rose shades or rosy carmine, being lighter on the reverse.	1 00
Has a very strong, wiry stem and lasts well when cut	1.00
Edith Slocombe. A true Hybrid Cactus, finely formed flowers	
carried on long, wiry stems of a wonderful shade of rich	
purplish-garnet or shaded velvet-maroon. The twisted and	
curled petals showing this beautiful combination of colors	2.00
make this an unusually attractive variety	2.00
Elsie Daniels. This fine new variety excites admiration where-	
ever shown. The long, shaggy outer petals are an attrac-	
tive light orchid shade, shading toward the center to a clear,	
creamy white. The blooms are borne on top of a fine rigid	
stem	3.50
Emma Marie. A favorite Hybrid because of its pleasing shade	
of clear pink with a creamy white center, and its combina-	
tion of exhibition and commercial qualities not found in	
many Dahlias. Robust grower and bears its blooms on a	
splendid stem	2.00
Francis Lobdell. A very stiff stemmed, low-growing variety.	
Color is mallow pink shading to white in center	1.00
Gee Whiz. This is an extraordinary large variety and for ex-	
hibition will prove indispensable. The color is a soft buff	
shaded salmon. The large flowers, which never show a cen-	
ter, are held well aloft on fine, strong stems	.75
Geo. Walters. An enormous Hybrid Cactus. The color is pink-	
ish salmon shading to yellow at base. Plants are strong	
growers and have every good habit. Highly recommended	.75
Gladys Sherwood. As compared with other whites this is a giant	
among pygmies. Flowers will grow 9 inches in diameter with-	
out disbudding. It has fine stems	.75
Harry, Sheldon, Jr. Large, spreading blooms of delicate lav-	
ender pink shading to white in the center. The wonderful	
size and beautiful shadings of this variety make it a wel-	
come addition to any exhibit	2.00
Jean Chazot. Another fine flower of the popular Autumn	
shades. The color for the most part being golden bronze,	
with slight red suffusions. Blooms abundantly on heavy,	
wiry stems	.75
Jersey's Radiant. Bittersweet orange, large flowers produced on	
long stems. An attractive and much admired variety	2.50

Judge Duncan. A new variety which we can recommend as be-	
ing an all around good Dahlia. It is one of those sorts which	
have a dark stiff stem and keep so very well when cut. The	
color too is very desirable, being deep crimson shading to	
rich velvety maroon in the center	.50
Kalif. Pure scarlet, gigantic flowers produced on stout stems.	
An old variety, but one that can compare very favorably	
with the latest itnroductions	.50
MacGregor. The fine, clean growing, free-blooming habits com-	
bined with its brilliant, clear, spectrum red color make this	
one of our best varieties, both in the garden and on the ex-	
hibition table	1.00
Mariposa. The color is lovely clear pink, deepening in the cen-	
ter, veined and suffused faint violet. It is a giant in size, be-	1 50
ing composed of many long, curly, incurved petals	1.50
Marian Broomall. Mammoth pink and white hybrid. Erect	
stem and a good bloomer. One of the most admired va-	0.50
rieties in our garden. Plants only	2.50
Mephestophles. A dahlia that differs from the ordinary run by	
the fact that it has but very few lateral shoots. The stems	
are extremely long and very erect. The flowers are very	
large and are placed right on top of the stem. Color is ruby red with a golden tip on each petal	1 00
	1.00
Mrs. Ethel F. T. Smith. This is the largest Dahlia I have ever	
grown, having blooms over 10 inches in diameter. The color,	
is creamy white, shading to lemon yellow in the center. A profuse bloomer on long, strong stems	75
	./5
Mt. Shasta. Very light shell pink with slightly deeper shadings through the center of the petals, also showing a slight tinge	
of yellow on edge of petals. A fine, large, deep flower	.50
	.50
Nibelungenhort. Immense flowers, 7 to 8 inches across. Color rich golden apricot suffused old rose. Very free	71
	.75
Pappillon. Old rose with golden shadings. The size is large,	2.00
and it is a wonderful bloomer on good stems	2.00
Paradise. This is a very much improved Geo. Walters, which,	
to our mind, is sufficient recommendation for any Dahlia.	
The color is a bit deeper, being old rose suffused with gold.	2.00
Has a very fine, erect stem	2.00
Peppermint Candy. Dahlia fanciers are always looking for	
something extraordinary and unusual. The name of this	
new hybrid cactus gives quite a unique description of this odd	
variety which is creamy white with many crimson stripes and	
sprasnes. It is rarge size and a very free bloomer, but we	
regret to say that the stem is not heavy enough to carry the	
splashes. It is large size and a very free bloomer, but we	

Rollo Boy. We consider this one of the best new varieties which we had in our trial gardens last year, and the vase of it which we had at the New York show excited much admiration. The color is deep golden yellow, shading to old gold. It can be grown to a wonderful size, and has fine, long, erect stems	
Talisman. Here is a bloom of rather a new combination of colors, being a brownish red with a reverse of tan. The petals incurve slightly, showing the tan reverse which gives the effect of tipped and edged gold. A fine, thrifty grower that bears large blooms freely	
Violetta. The rich pentunia violet color, and the strong, erect	4.00
growth of this variety make it a favorite with all who grow it. The formation is that which some of our Western friends term American Cactus, the petals being somewhat more tightly rolled than the usual Hybrid	2.00
	2.00
Washington City. A very large Hybrid of pure white which	75
produces a long succession of fine blooms on excellent stems Wizard of Oz. One of the largest Dahlias grown. The color is	.75
glowing amber pink	2.50
Wodan. Salmon rose shading to old gold. Bold, large but not	4.50
coarse flowers	.50
Zante. One of Bessie Boston's best, and, of course, a big one.	.50
Has a heavy, rugged stem which holds the large deep flowers so that it looks you right squarely in the face. The color is gold, suffused with apricot pink	2.00
SELECT PRIZE WINNING CACTUS DAHLIAS.	
Ambassador. Undoubtedly the best variety we have of this	
class. Has many fine, large blooms on long, erect stems.	
The color is soft yellow with shadings of salmon pink	1.00
Ballet Girl. A new Cactus of the "Fellows" type, being large	2.00
size and remarkable free blooming on good stems. The	
ground color is orange, often tipped and marked with white	.75
Etendard de Lyon. Rich carmine rose, or royal purple, with	., 0
suffusions. An all around good variety	.50
Farncot. This little purple and white tipped variety will pro-	
duce more blooms per plant, and last longer, than any other	
variety we know. We regret that owing to heavy garden	
sales we can offer plants only	1.00
F. W. Fellows. Bright orange scariet. Flowers freely pro-	
duced and are of exceptional size. Very wiry	.50
Gladys Bates. This is a flower which is classed in California	
as an American Cactus: the petals being of a slightly coarser	
formation than the true Cactus type. Immense, heavy blooms	
of incurved petals of tan with reverse of rose. Perfect form.	

closed center, long, straight stems, and a profusion of blooms	
John Riding. Deep crimson. Very much incurved. A fine exhibition variety	.75
Guardian. Prolific, strong stem, free blooming crimson. Nothing better in a red cactus	
Melody. Pure yellow for half the length of the petals and the remainder pure white. A strong grower and a free bloomer	
Meridian. It is not often the American grower is able to offer a cactus of the true slim petal type. This variety has the added advantage over the British productions, it having a very erect stem. The colors are extremely delicate being creamy pink, deepening at the tips to a soft blush	
is also very pleasing, being a delicate lavender shading to	.75
Miss Frances White. Pure white, free blooming and incurved Mrs. Alfred Harvey. A fine, free blooming variety of wiry stem	.50
and growth. The color is bright salmon pink with darker shadings at base	2.00
Pierrot. Deep amber, boldly tipped white. An exceptionally large and striking variety	
Pink Abundance. A flower composed of many fine florets. Color mallow pink with white shadings. Certificate of Merit A. D. S. 1920	,
Old Bill. A sturdy growing, stiff-stemmed crimson. The flowers stand erect, and last well when cut. Size is large	
Prima Donna. A fine, large flower of the incurved type, color is creamy white at base with tips of lavender pink	.35
Regent. A lovely clear pink incurved variety which we can highly recommend. Prolific flowering, good size and stem Silverhill Park. A large, pure white of the highest type of in-	1.00
curved Cactus. One that is highly recommended by the introducers	1.00
Valiant. A grand exhibition Cactus of brilliant crimson. Good stem. Form, perfectly incurved. Very large	1 00
SELECT PRIZE WINNING PEONY DAHLIAS.	
Albert Ward. An exceptionally large bloom, well formed and	
free flowering. Good stems. Color deep purple	
chanson. A very full and deep Peony of rather an unusual shade of deep lilac with a blueish sheen. Fine producer	

City of Portland. There is a great demand for large flowers	
and this is large enough to satisfy most anyone. The color	
is a fine, clear yellow, and the stems are long and stiff	1.00
Cleopatra. Large blooms of deep amber with a reverse of a	
peculiar orange shade, making an unusual color effect	.50
Elizabeth Boston. This huge yellow and red peony is too well	
known to need description. No doubt one of the most sat-	
isfactory of this type	2.00
Ethel Hardy. This is one of the finest rose buff peony dahlias	
grown. It is extra large, has good stems, and is very use-	
ful for exhibition	.1.50
Holman Hunt. A fine free blooming rich crimson which can al-	
ways be relied on for cut flowers	.50
Miss Martin. This is one of the largest peony flowers grown	
to date. It is of perfect form and has very long stems. Color	
is garnet	1.50
Miss Leota Cota. A more beautiful blending of creamy buff and	
pink would be hard to imagine. The flowers are enormous,	
coming 10 inches or more in diameter	.50
Mrs. John Bray. A most distinctive fancy Peony. The ground	
color being purplish maroon with many white stripes and	
splashes. Flowering habits are all good; blooms early and	
constant	1.00
Pearl Ruggles. One of the largest and most exceptional col-	
ored Peonies. The color is carmine rose suffused with cerise	
pink, and white at the base of petals. A free bloomer on	
long stems	1.00
Uncle Sam. Here is a giant bloom which you surely want. It	1.00
is a long stiff stemmed variety of brilliant copper color, and	
full deep formation. We believe it to be the largest Peony	
grown	1.50
grown	1.50

SHOW AND HYBRID SHOW DAHLIAS	
Anna Rehorst. A large, fine hybrid of the deepest purple	
Cuban Giant. Bright maroon. Large	.25
David Warfield. Cherry red. A decided acquisition	
Dreer's White. Clear snow white. Large	.25
Estelle Christy. The best yellow Show Dahlia I have ever	3
grown. Flowers are extra large, and are borne on stiff rug-	
ged stems. The color is a bright lemon yellow	1.00
	1.00
General Miles. An enormous Fancy Show Dahlia. The ground	
color is light violet striped and spotted with purplish ma-	1.00

Golden Opportunity. A large flower of rich golden bronze. Plants are strong, thrifty growers	.75
King of Shows. Deep butter yellow of a solid color throughout. Every petal is most perfectly quilled and uniquely formed. A mammonth flower on long stems	1.00
Maud Adams. A perfect snowball with faint lavender blush on tip of petals. Very desirable for cut flowers	.35
Miss Helen Hollis. A gigantic deep scarlet flower. The best of the red Show Dahlias	.35
Mrs. C. D. Anderson. This might be called an improved Cuban Giant. It is a rich purplish crimson, and bears large flowers freely on the best of stems	.50
Mrs. Hyde. A hybrid show form of Mrs. Warner, the colors being the same beautiful orchid, but the blooms are of a different form	1.00
Mrs. Mary Bowman. An exquisite shade of deep golden yellow with the reverse of petals slightly tinged magenta. A strong thrifty grower in every respect	.50
Norma. Orange buff. Very attractive	.25
Purple General Miles. A solid color sport of General Miles. Clear violet purple throughout	1.00
Silva Quarta. This huge lavender ball attracted much attention in our garden. The size not only is large, but is composed of innumerable tightly quilled petals, one inside of the other	2.00
Supt. Amrhyn. This new pink invariably wins the prize when exhibited in the show classes. It is of good size, will last extremely well when cut and has a fine, stiff stem	1.00
Vivian. A very beautiful and a favorite Show Dahlia. The base of the petals is white distinctly edged carmine	.25
Yale Bowl. A waxy golden bronze bloom, periectly quilled, and holds its center until the end of the season	1.00
SELECT POMPON DAHLIAS	
Amber Queen. Fine, deep amber with apricot suffusions	.25
Belle of Springfield. Very diminutive brick red	
Bronze Beauty. Rich golden bronze	
Dee Dee. Decidedly good. Small, well-formed lilac	

THE WORLD'S MOST SELECT DAHLIAS, 1928	17
Jessica. A diminutive variety of amber and salmon with just a tint of red	.25
Lassie. Yellow base with rose band and tip on each petal	.50
Lilac. Golden yellow background, pinkish lilac face. Prolific bloomer	.50
Little Mabel. Amber shaded apricot. Very free	.25
Little Prince. Crimson, each petal being tipped white	.35
La Petite Barbara. Well known pure white	.35
Little Jennie. Primrose yellow	.25
Phyliss. Yellow shaded and edged red	.35
Raider. A new English Pompon of the most refined exhibition type. Color is light creamy yellow, size medium to small	.75
Rosalia. Yellow, with edging of crimson	.25
Snowclad. The most reliable pure white	.25
Yellow Gem. Fine canary yellow with good stems	.50

SPECIAL OFFERS.

To those who are not conversant with the various varieties, I recommend the following collections:

If you wish something different than is mentioned below, advise me of your wishes and the amount you desire to spend, and I will be glad to make the selection for you. If the selection is left entirely to me I will guarantee at least 25 per cent. additional value at catalogue rates.

- For \$1.25 I will send 12 tubers, unnamed; 30 for \$2.25. These are all first class varieties that have become mixed in handling.
- For \$1.25 I will send 12 good garden and exhibition varieties, my selection, no two alike.
- For \$2.75 I will send 12 Pompons, my selection, no two alike.
- For \$10.00 I will send 18 of the best exhibition varieties, my selection, no two alike.

For \$10.00 I will send 12 Decoratives, my selection. The varieties which we supply in this collection, if bought separately, would sell for \$15.00 or more.

We have changed our arrangements of former years and are now sending these collections postpaid in the U. S. A.

TIME OF SHIPMENT AND PLANTING

I do not recommend planting in this climate until the latter part of May, and to insure a long succession of bloom, planting should be extended until the latter part of June. I start shipping around April 1st, and orders are filled in rotation as received, but if customers will kindly state at what time after that date they would like to receive them I will try to ship them as near the date requested as possible.

DAHLIA LABELS

-0----

Many of our friends find it difficult to secure proper labels for use in their gardens. We can supply copper wired tree labels the same as we use in our own gardens as follows. The prices, however, do not include postage unless shipped with a tuber order.

25c per 50

40c per 100

\$2.75 per 1000

DAHLIA SEED

The growing of Dahlias from seed is very fascinating for you never know what a seed will produce and each plant is a new variety. The seed should be planted in the house or a cold frame during late March or early April and transplanted to the garden when the weather is suitable, usually about the middle of May. We have a limited amount of our own seed which we can supply at \$1.00 per package.

We have also made arrangements with a well knewn California grower for a limited amount of Western grown seed which we can also supply at \$1.00 per package.

JOIN THE AMERICAN DAHLIA SOCIETY

A real, live Society organized in the interest of the Dahlia. Membership fee \$2.00 per year, which includes subscription to a very interesting quarterly Bulletin, also season ticket to the big annual show. For further particulars apply to Wm. J. Rathgeber, Sec'y, 198 Norton St., New Haven, Conn.

GLADIOLUS

Gladiolus are a very satisfactory summer flower, being of easy culture and will succeed in most any soil. We do not offer a large selection, but the following are some of the best medium-priced varieties:

- Albania. The best pure white. 15c each. \$1.50 per doz.
- **Evelyn Kirtland.** Rose pink with a scarlet blotch. A good, reliable standard. 07c each. 75c per doz.
- E. J. Shaylor. Deep rose pink. Large blooms. 10c each. \$1.00 per doz.
- **Golden Measure.** Golden yellow. Fine, tall spikes. 15c each. \$1.50 per doz.
- **Halley.** Salmon pink. Early, and a standard cut flower variety. 05c each. 50c per doz.
- Mrs. Dr. Norton. Silvery white tinged pink. One of the most admired. 10c each. \$1.00 per doz.
- Myra. Yellow and salmon. One of the best of the Primulinus type. 05c each. 50c per doz.
- **Princess of Orange.** Vermillion with white stripes. A fine variety which should be better known. 08c each. 75c per doz.
- Scarlet Princeps. A fine massive scarlet. 10c each. \$1.00 per doz.
- **The Pearl.** Light pink and cream. A fine, graceful and early variety. 10c each. \$1.00 per doz.
- Violet Beauty. Cerise-violet with red blotch. Large spikes, and one of the best of this color. 20c each. \$2.00 per doz.
- General Mixture of all varieties including Primulinus Hybrids, .50 per doz.
- Choice Mixture of the best large flowered varieties \$1.00 per doz.

Our Gold Medal Exhibit at the Annual Exhibition of the American Dahlia Society, September, 1927, in New York City
